My ORi, My Life

## ORIGAMI Spirit Within

Inspired by Japanese traditional craftsmanship, Origami means “the art of folding paper”. The spirit is to create the most delicate patterns by using minimal papers and cutting. ORI, branded as the name of it, follows the same way to create folding bikes with smart and neat designs. Whether you are heading for work in the MRT, relaxing on the weekend or traveling further afield, ORI offers an enjoyable, convenient transport solution. Take control of your journey and enjoy the freedom that only the folding bike can offer.

# 2014 LINE UP

**C**

C serie attempts to provide consumers an economical way to enjoy folding bike. To satisfy riders' basic needs, eco simplifies the specification and design without compromising other features.

*FLAG*

*Angel*

*Classic*

**CR**

The lightest road racing folding bike on the market. Spec. with carbon frame and fork. Light, rigid and comfortable to ride.

*CR1.1*

*CR3.0*

**AR**

Hydro formed, elegantly designed 6061 aluminum frame. Lightweight and rigid to ride. For Sunday rides or shorter touring.

*AR20*

*AR9*

**M**

The sturdy, well structured monocoque frame delivers riding stability and light weight. With the anodized finish, the frame body is nearly scratch-proof.

*M10*

*M9*

*M18*

**CT**

New mini-velo series for ORI family. Designed for urban sport using, and the wheel size up to big 20" (451mm). It's more easy to ride and good for handling. The riding geometry is just like normal road bike.

## Features

### IRC INSTANT REBOUND CATCH

The Instant Rebound Catch (IRC) mechanism enables ORI to fold up in seconds and easy to carry and store. The brilliant idea is inspired by the simple and intuitive operation of airplane safety belt. IRC also works as a reliable hinge locking the bike together when unfolding. Thanks to IRC, the safety and convenience are perfectly connected together.

Geometry designed with the vertical folding frame and extension stem to have good riding performance as a normal big bike.

Anodized frame is tough, light and will look good for years to come.

- ★ Approximate folded size for 16" bikes L:690 W:310 H:630 (mm)
- ★ Approximate folded size for 20" bikes L:830 W:350 H:690 (mm)
- ★ ORI is designed and tested for use by riders weighing up to 100 kg

# SURPAZ CR1.1 Di2

ORI CR1.1 carbon frame are made using new anti-wrinkle carbon technology. Not only enhanced stiffness but also lightweight. The CR1.1 is designed for high performance racing, lightweight and efficient.
